

Where **savvy nonprofits** turn for technology

► Here's what our technology experts can do for you

Technology Strategy

Maximize your mission impact through strategic roadmaps for your technology infrastructure, data management and communications systems.

Managed Services

Achieve and maintain a stable and secure technology infrastructure with our technology know-how and support.

Database Consulting

Manage your important data and deepen your relationships through integrated solutions to track donors, volunteers and clients.

Web Design & Development

Create an impactful online presence. Our solutions engage users in your mission and are easy to maintain.

Social Media Strategy

Weave social media tools into your communications strategy. Our expert advice and training help you create a more robust community presence.

Collaboration Services

Increase collaboration through document exchange, project planning, group calendar, knowledge base, email, and web conferencing.

Training

Build skills and inspire innovation through training, coaching and consultation for your staff, volunteers and board members.

► Why work with us?

NPower focuses technology on mission in ways that advance both individual nonprofits and the sector as a whole. We are motivated by mission and inspired by possibility.

► Who's talking?

Our database helped us imagine possibilities. It has really transformed how we do business.

Leslie Collins
Deputy Director, Arts Corps

NPower handles the technology so I can focus on our mission.

Steve Dubiel
Executive Director, EarthCorps
